

 **Human Resources Consulting**

iTechCareer – Recruitment Division

iTechCareer RD is a real solution to the IT Search and Selection challenge.

Through many years' experience on emerging and leading-edge technologies, iTC has built a gilt-edged reputation and demonstrable record for tracking down scarce talent at the most challenging end of the market.

Clients enjoy considerable competitive advantage through our authoritative industry knowledge, matchless network of contacts and compelling commitment to client satisfaction. Moreover, our approach is one which is refreshingly personal, ethical and transparent.

We use our own employment portal with more than 50,000 contacts (Systems & Technology profiles) and have recently added our 2.0 web to select and evaluate candidates.

Due to our extensive network, and to continue offering an integral solution to our clients, we are able to expand our recruitment services to other areas like: sales, marketing, finance & administration, human resources, among others.

Our Services

IT Recruiting

Direct Client contact

Database search, web advertisement, head-hunting

CV evaluation

Candidates screening and individual, personal interviews

Interview comments presentation

Interview process organization and offer process

Optional: psicometric tests

Executive Search

We are head hunting experts throughout Latinamerica. We are envyingly well-connected for IT head hunting in Argentina, Mexico, Colombia, Brazil, Chile and many other countries. We identify and contact high level executives in every country of the region. The service includes: profile definition, job specification, detailed interview comments and psicometric tests.
